

Below is a partial list of drugs. The first section lists the drugs by brand name. The second section lists the drugs by generic name. The medications in **bold face type** denote significant underlying disease. Their current use for certain conditions may warrant adverse decisions. Please determine why the medication is being taken and for how long. For further details regarding these medications or for information on additional medications not in this list, please call JT RYAN at **(800) 868-6581**.

## DRUG INDEX

---

| <u>Brand Name</u> | <u>Used in the Treatment of:</u>          |
|-------------------|---|
| Accolate          | asthma                                    |
| Accupril          | hypertension                              |
| Activase          | heart attack, stroke, pulmonary embolism  |
| <b>Adriamycin</b> | <b>cancer/leukemia/lymphoma</b>           |
| AeroBid Inhaler   | Asthma                                    |
| Agrylin           | Essential thrombocythemia                 |
| Aldomet           | hypertension                              |
| <b>Alkeran</b>    | <b>Cancer</b>                             |
| Alphagan          | Ocular hypertension/glaucoma              |
| Altace            | Hypertension/chronic heart failure        |
| Alupent           | asthma/COPD/emphysema                     |
| Amaryl            | non-insulin dependent diabetes            |
| Ambien            | insomnia                                  |
| Amerge            | migraine                                  |
| Apresoline        | Hypertension                              |
| <b>Amplex</b>     | <b>Alzheimer's disease</b>                |
| <b>Aricept</b>    | <b>Alzheimer's disease</b>                |
| <b>Artane</b>     | <b>Parkinson's disease/tremor</b>         |
| Arthotec          | Osteoarthritis/rheumatoid arthritis       |
| Arvin             | Anticoagulant therapy                     |
| Atarax            | anxiety/panic/itching                     |
| Ativan            | anxiety                                   |
| Atrovent          | COPD                                      |
| Avapro            | Hypertension                              |
| <b>Avandia</b>    | <b>Non-insulin diabetes (handle as</b>    |
| <b>Avonex</b>     | <b>Rezulin)</b>                           |
| Axid              | <b>Multiple sclerosis</b>                 |
|                   | Acid-reflux disorders (GERD)/peptic ulcer |
| Azmacort          | asthma/COPD/emphysema                     |
| Azulfidine        | Crohn's disease (ulcerative colitis)      |
| Baycol            | Hyperlipidemia (high cholesterol)         |
| Betapace          | Arrhythmias                               |
| <b>Betaseron</b>  | <b>Multiple sclerosis</b>                 |
| Brethine          | COPD/emphysema                            |

| <b>Brand Name</b> | <b>Used in the Treatment of:</b>   |
|-------------------|--|
| Bretylol          | Arrhythmia   |
| Bricanyl          | COPD/emphysema/asthma  |
| Bumex             | Hypertension/chronic heart failure   |
